Introduction

To the Public:

Thank you for your interest in the Metropolitan Airports Commission's 2011-2015 Strategic Plan. Careful planning is always important, and never more so than during periods of significant changes in the economy and the industry. The plan before you recognizes the need to adjust to those changes and to capture opportunities to strengthen and grow air service in the region.

From a financial perspective, we need to redesign the terminal rate structures for airlines operating at Minneapolis-St. Paul International Airport (MSP), review the existing financial model for our reliever airport system, and develop methodologies for estimating life-cycle operational costs when considering capital and technology improvements.

Our vision is to provide customers the best airport experience in North America. To achieve that, we need to work with the Transportation Security Administration to smooth the introduction of new security screening technologies and to keep checkpoint wait times to a minimum. In addition, we need to begin conducting the market research necessary to plan long-term improvements to MSP's award-winning food, retail and service offerings.

MSP is among the most efficiently operated large airports in the nation thanks to prudent financial management and a highly skilled, productive staff. We need to explore cost-effective ways of furthering employees' development and managing talent within the Metropolitan Airports Commission. At the same time, we want to better coordinate and enhance communications with our stakeholders and partners.

Finally, we must consider all the business needs to be addressed as we prepare to implement long term comprehensive plans for our airports. Forecasts suggest 56 million people will travel through MSP in 2030, up from 33 million in 2010. The long term comprehensive plan outlines \$2.4 billion in airport improvements to ensure MSP continues to meet the air transportation needs of our community for decades to come. Careful preparations in 2011 will help ensure the plan fully addresses the needs of our airport business partners as well as of the community as a whole.

We look forward to implementing the 2011-2015 Strategic Plan over the next five years and to meeting the growing air service needs of the region.

Sincerely,

Daniel Boivin
Chairman

Jeff Hamiel
Executive Director

A handwritten signature in cursive script that reads "Jeff Hamiel".

“To give our customers the best airport experience in North America!”

- Our vision applies to:
 - MAC as an Organization
 - MSP and the Reliever Airports
 - All of our Customers:
 - The Traveling Public
 - Regional Businesses
 - Airport Tenants and Concessionaires
 - The Airline Industry
 - General Aviation
 - The Citizens of the Region
- Our vision guides our priorities, decision making and actions as we move forward.

Our Mission

“We provide and promote safe, convenient, environmentally sound and cost-competitive aviation services for our customers.”

Provide

Our mission is to provide and maintain airport facilities and services that meet the needs of our community.

Promote

Our mission is to promote the use of airport facilities and services in ways that drive regional economic development.

Safe

Our mission is to provide a safe and secure airport environment throughout our system of airports.

Convenient

Our mission is to ensure that our facilities are easily accessible and convenient for all.

Environmentally Sound

Our mission is to be environmental stewards of these public assets.

Cost Competitive

Our mission is to provide products and services at competitive prices.

Aviation Services

Our mission is to provide and maintain an airport infrastructure that supports the national system of air transportation.

Our Customers

Our mission is to balance the often competing needs of our customers:

- The Traveling Public
- Regional Businesses
- Airport Tenants and Concessionaires
- The Airline Industry
- General Aviation
- The Citizens of the Region

Our Values

Integrity

- We do business in an honest, fair, open, and respectful manner.
- We live up to our responsibilities, meet our objectives, and fulfill our commitments.
- We maintain our credibility through timely communication with customers, employees and stakeholders.
- We instill confidence in all who deal with our organization that we can be depended upon to act with the highest moral and ethical standards.

Fiscal Responsibility

- We make sound financial decisions that balance the interests of the organization, community, partners, stakeholders, and customers.
- We make decisions that help to drive the economic vitality of this region.
- We maintain policies to provide adequate revenues to operate without general tax support or the exercising of our authority to levy taxes.

Innovation and Excellence

- We seek creative and innovative solutions to complex challenges.
- We set high standards in all aspects of our organization and focus on continuous improvement.

Commitment to the Community and the Environment

- We are responsive to the environmental concerns of the community.
- We demonstrate leadership in sound environmental management.
- We promote open and honest communication about environmental concerns.

Teamwork

- We reach common goals through strong relationships based on trust.
- We commit ourselves to open and respectful communication.

Employees

- We value our employees for their skills and abilities, ethical behavior, diversity, creativity, innovation, and sound judgment.
- We provide our employees with rewarding work, opportunities for professional growth and an appreciative work environment based on trust, respect for each other and open communication.

Our Critical Issues

Addressing the Impacts of a Sluggish Economy on the Industry

Challenge: MAC's challenge is to successfully operate the organization under the financially restrictive conditions while meeting the expectations of our customers and maintaining the current infrastructure.

Implication: Our operating budget needs to adequately fund organizational priorities while balancing long term financial objectives.

Diversifying Our Revenue Streams

Challenge: The economics of the airline industry calls for the diversification of MAC's portfolio to be less reliant on limited sources of revenue.

Implication: MAC needs to focus on ways/methods to capture alternative revenue sources for both MSP and the Reliever Airports.

Transitioning the Organization through Changes in Leadership

Challenge: A majority of the executive leadership team is eligible to retire during the life of this plan. Retirements will also take place in a number of key technical and professional positions. We must remain a high performing organization as these transitions occur.

Implication: MAC needs to ensure transition plans are created as needed, develop internal talent, recruit/select the successful candidates and facilitate the integration into their new role.

Nurturing MAC's Organizational Culture

Challenge: MAC's organizational performance and success is largely attributable to the internal culture based on trust, respect and commitment.

Implication: MAC needs to affirm the organization's culture and develop strategies to build upon this solid foundation.

Maintaining Current and New Infrastructure

Challenge: The investments made in the public assets of MSP and the Reliever Airports need to be maintained and preserved.

Implications: MAC needs to budget sufficiently for the operational expenses of our existing facilities and include life cycle costs with the development plans during the CIP process.

Leveraging Technology

Challenge: MAC is challenged to get more done with less through the use of technology.

Implication: MAC needs to take advantage of the investments we have made in resources and make strategic decisions on the acquisition and use of new technology.

Planning/Strategizing for the Financing and Implementation of the 2015 LTCP

Challenge: How/When to commit to construction given the state of the industry and the need for approximately 3 1/2 years from project initiation to opening of facilities.

Implication: MAC needs to focus on budget, environmental approvals, getting the carriers on board and authorization from the Commission.

Our Strategic Goals

Assure Financial Viability

Ensure MAC has the financial resources necessary to operate our airport system and meet all debt service obligations in any scenario and maintain our existing bond ratings.

Provide a Great Customer Experience

Ensure that all our customers - the Traveling Public, Regional Businesses, Airport Tenants and Concessionaires, the Airline Industry, General Aviation and the Citizens of the Region - have the best airport experience in North America.

Match Employee Talent with Changing Business Needs

Make sure that the right people with the right skills and experience are in the right place to fulfill MAC's mission and achieve our vision.

Leverage Resources and Technology

Take full advantage of resources and technology to improve performance, increase productivity and deliver cost-effective services.

Strengthen Partnerships and Relationships

Expand effectiveness through internal teamwork and strengthening external relationships and partnerships with tenants, concessionaires, airlines, neighboring communities, regional businesses, and governmental agencies.

Our 2011 Key Initiatives

Strategic Goal: Assure Financial Viability

2011 Key Initiatives:

- *Incorporate life-cycle operational costs into CIP and technology budgeting.*

Outcome: Broad understanding of and support for the long-term operational budget implications of CIP projects and technology purchases.

Budget Impact: Identification of long term operational costs.

- *Review existing Reliever Airport financial model.*

Outcome: Sustainable reliever financial model developed.

Potential Cost: \$30,000

- *Develop Terminal 1 & 2 rates and charges approach.*

Outcome: A redesigned rate structure.

Potential Cost: \$100,000

Strategic Goal: Provide a Great Customer Experience

2011 Key Initiatives:

- *Partner with TSA at the local and national level to ensure the smooth introduction of new checkpoint technologies.*

Outcome: MSP customers experience fifteen minute maximum wait time during peak demand periods.

Potential Cost: \$10,000

- *Conduct comprehensive market research for the concessions bid process.*

Outcome: Clearly defined research-based strategy for the MSP's concessions program.

Potential Cost: \$70,000

Our 2011 Key Initiatives

Strategic Goal: Match Employee Talent with Changing Business Needs

2011 Key Initiative:

- *Expand employee development and talent management plans.*

Outcome: Success profiles identified by management level. Talent reviews, employee development and/or knowledge transfer plans in place for the highest priority positions.

Potential Cost: \$50,000

Strategic Goal: Leverage Resources and Technology

2011 Key Initiative:

- *Develop initial LTCP implementation plans.*

Outcome: A clear definition of the business needs to be addressed by the LTCP and a more defined implementation timeline.

Potential Cost: Capital Budget

Strategic Goal: Strengthen Partnerships and Relationships

2011 Key Initiative:

- *Implement a MAC stakeholder and partnership communications matrix.*

Outcome: A knowledge management process implemented for key stakeholders and partners.

Potential Cost: \$5,000

Our Key Areas of Performance

Our Results Indicators

Safety

MSP Runway Incursions & Airfield Violations	2005	2006	2007	2008	2009	2010
Airfield Operations Area (AOA Violations)	3	13	5	2	3	0
Citations Issued	35	43	79	58	34	44

Our 2012-2015 Long Range Plans

PHASE I: 2010 - 2015

Proposed 2010-2015 Capital Improvements by Airport

Minneapolis Saint Paul International Airport

- Completion of Noise Mitigation work in compliance with the Consent Decree
- Complete Environmental Assessment for MSP LTCP Phases 1 and 2
- Terminal 1 – Lindbergh
 - Construct second In-Line Baggage Screening Location
 - Replace Jet Bridges
 - Baggage Claim/Baggage Make-up Remodel
 - Begin work on Lindbergh Terminal Improvements in Ticketing and on the E Concourse
 - Initiate G Concourse Tram Procurement
- Terminal 2 - Humphrey
 - Construct second Checkpoint
 - Construct In-Line Baggage Screening System
 - Initiate Construction of Terminal Expansion
 - Construct 17 new gates including jet bridges, apron improvements, hydrant fueling, and site utility improvements
 - Auto rental facility
 - Parking Expansion
 - Roadway system improvements including 34th Ave/1-494 interchange improvements

Reliever Airports

- Airlake
 - Complete the south hangar area to accommodate the 2025 needs
- Anoka
 - Xylite street relocation
 - Taxiway Charlie extension
- Crystal
 - Complete Environmental Assessment for LTCP proposed runway modifications
 - Reconstruction of runway 14L-32R
 - Reconstruction of the runway 14R-32L pavement into a taxiway
- Flying Cloud
 - Modify the south end of 18-36 and extend runway to the north for full 2,800 feet, upgrade runway lights and circuit.
 - Construct East/West perimeter road
- Lake Elmo
 - Reconstruct the existing primary runway 14-32
 - Provide additional runway length as recommended in the LTCP
 - Provide additional hangar space as recommended in the LTCP
- St Paul
 - Terminal sub drain
 - Electrical vault improvements
 - Pavement rehabilitation work
